City of Elko Flood Assistance Update – March 10

The Small Business Administration (SBA) disaster declaration for Elko County has been postponed as a result of actions by the State of Nevada Department of Public Safety's Division of Emergency Management related to additional flooding in northwest Nevada. As a result of the Division's action, the SBA will not be providing immediate assistance in the City of Elko on the anticipated date of March 13, 2017. The City will provide additional information as it becomes available.

If you have any questions on this matter, please call (775) 777-7210.
